Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The RCE filed 21 June 2006 presents claims to multiple distinct inventions not previously under consideration in the present application. Applicants cannot file an RCE to obtain continued examination on the basis of claims that are independent and distinct from the claims previously claimed and examined as a matter of right (i.e., applicant cannot switch inventions) (see MPEP 706.07(h)). However, the examiner and applicant have agreed to switch the invention in the RCE as long as the claims are limited to a single invention in the interest of compact prosecution. Applicant will submit a supplemental amendment restricting the claims in the RCE to a single invention for further consideration by the examiner.
